Genetics and evolution

Crossword

Across

4 A thread of tightly coiled DNA that carries many genes (10)

6 The variety of living things in a place (12)

7 A sex cell: an egg or a sperm (6)

9 The passing of genetic information from one generation to the next (8)

Down

1 The differences between living things (9)

2 A group of living things that can breed together to produce fertile offspring (7)

3 The shape of DNA: two strands twisted together (6,5)

5 A change in the DNA (8)

8 A section of DNA that controls an inherited feature (4)

The number in brackets is how many letters the answer has.

Crossword

Across

4 Chromosome
A thread of tightly coiled DNA that carries many genes (10)

6 Biodiversity
The variety of living things in a place (12)

7 Gamete
A sex cell: an egg or a sperm (6)

9 Heredity
The passing of genetic information from one generation to the next (8)

Down

1 Variation
The differences between living things (9)

2 Species
A group of living things that can breed together to produce fertile offspring (7)

3 Double helix
The shape of DNA: two strands twisted together (6,5)

5 Mutation
A change in the DNA (8)

8 Gene
A section of DNA that controls an inherited feature (4)

In the word search, words go across, down or diagonally, and spaces are left out. The same puzzles can be played on the Genetics and evolution page of the KS3 Science revision site.
